

# BECOMING A GLOBAL CITIZEN

## Discussion Session 2

### Humanitarian Issues

#### **Introductions**

- Introduce yourself and tell us what global issues are most important to you personally?
  - Which do you think is more difficult - helping end humanitarian crises, or helping to save the environment?
- .....

#### **Poverty and Culture**

- What would it be like growing up in a landfill?
  - How might this impact one's sense of identity, culture, and values?
  - What does globalisation mean for someone living in extreme poverty?
- .....

#### **Global Issues and Responsibility**

- Does the reality of extreme poverty change our sense of what a good global citizen is or does?
- It's more useful to imagine being part of a 'wave' of collective action, rather than one 'drop' in the ocean. What other images might be helpful to frame your impact on global issues?
